

CHOICES FOR CHILDREN

Early Intervention Program
for Deaf & Hard of Hearing Children

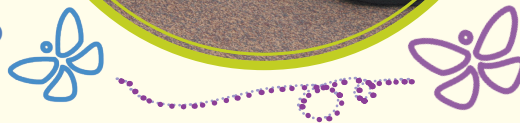

What do you do when you
learn that your child has
a hearing loss?

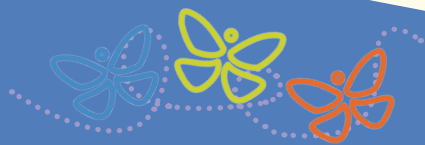

Who do you talk to?

How do you get started?

The Choices for Children staff
understands how overwhelmed
you can feel and we're here to
help every step of the way!

The Choices for Children program has provided early intervention services to families of deaf and hard of hearing infants and toddlers for over 30 years. Our experienced, certified teachers are the cornerstones of this program, with regular visits scheduled to home or daycare settings. Staff provides comprehensive and objective information, advocacy, and training in language, listening and speech for infants and toddlers who have a hearing loss.

Providing support and balanced information to help
you choose the educational approach best matching
the strengths and needs of your child.

Our teachers collaborate with parents to:

- Help children maximize the use of residual hearing through auditory training
- Provide support and resources in hearing aid and cochlear implant management
- Lay the foundation for good speech and speech reading skills
- Help children develop a solid language base (spoken and/or signed) for successful communication and learning
- Target and help children attain appropriate developmental milestones
